FOR IMMEDIATE RELEASE

Jersey City Restaurant Association Presents The 4th Annual JC Restaurant Week July 17th-31st, 2022

{Jersey City, NJ} – The Jersey City Restaurant Association will present its Fourth Annual Restaurant Week taking place across Jersey City from July 17th-31st. The previous event last March featured offers from over 80 restaurants in Jersey City located from Grove Street to Greenville.

JC Restaurant Week Summer 2022 offers diners previews of dining experiences through [video features](#) on our website jcrestaurantweek.com as well as the ability to search offers by neighborhood, cuisine, etc. We will be highlighting all the ways to dine in JC- not just amazing restaurants like [Latham House](#) and [Krewe of McGinley Square](#) but also food trucks bakeries, cafes, pizzerias and specialty eateries offering many of the wonderfully diverse food options available in Jersey City. Every one of these food businesses requires a tremendous amount of love and energy to be successful and Restaurant Week will give them all a chance to shine. We are excited to welcome unique dining experiences at local gems such as [Hard Grove](#), [Paratha Junction](#), [The Barge Inn](#), [Babka Bailout](#), [Brick Lane Curry House](#) and [Gussy's Cafe](#).

Offers vary by location and all participating restaurants and offers can be found on our website at jcrestaurantweek.com. We are continuing to accept applications from restaurants to participate.

Jersey City Restaurant Week is born of the passion of Carmen Mendiola, founder of the Jersey City Restaurant Association and a fierce advocate for Jersey City and its restaurant owners, Rachel Sieg, Director of the [HDSID](#) and a dedicated architect of Downtown JC's vibrant event scene with the goal of driving business and new visitors and residents to the city. Melanie Rudin and [MiT Communications](#) to design the website and execute PR and communications for the event. Videos produced and hosted by JC local experience experts [Elise Delgado](#) and [Alexander Calle](#).
